

# IntAlliance Office Complex

**Building an Eco-System to Support  
Growth and Innovation**

**Customized to Your Needs**

**Providing your company with a low  
risk, low cost entry strategy into the  
US and Washington, DC area markets.**

## About IntAlliance Partners

*IntAlliance Partners* is a firm of senior level executives providing services around a simple concept - leverage a product or company to the next level, in a fraction of the time and cost that it would take a Portfolio Company to develop the additional knowledge, contacts, and resources on its own.

It all starts with our accomplished executives who bring additional capabilities, breadth, depth and experience to your company. We then tap into our global network of contacts and partnerships to bring together the right resources, in the right place, at the right time. Services range from corporate strategy and business development, to funding assistance, operations support, and sales and marketing capabilities. Our unique "IntAlliance Office Complex" is specifically designed to provide you a low risk, low cost market entry strategy.

We focus on the telecommunications, energy, and healthcare sectors. We typically serve companies and divisions with existing (or near existing) products and revenues from \$0 to \$50 million. For more information, visit *IntAlliance Partners* at [www.IntAlliance.com](http://www.IntAlliance.com).
